Re: Construction Permit Expiration Date Extension Requests  
Emergency Generator Engines at Proposed Cell Towers in Tennessee

Dear Mr. Stephens:

On behalf of New Cingular Wireless PCS, LLC dba AT&T Mobility (referred to herein as "AT&T"), we are submitting this request to extend the expiration dates for 59 construction permits expiring in late 2015 or early 2016. These construction permits are for proposed emergency generator engines at cellular tower sites in Tennessee. The proposed construction schedule for the cellular towers and the associated equipment, including the permitted emergency generators, has been delayed until 2016 and early 2017.

AT&T is submitting this request for 12-month extensions for the sites included in the attached table. Should the construction schedule change again, AT&T understands that an additional extension request may be considered by the agency, and if denied, AT&T will have to reapply for construction permits.

AT&T appreciates TDEC's consideration of this request. If you have any questions, or need further information, please do not hesitate to contact me at (214) 748-5702.

Sincerely,

AT&T SERVICES, INC.
